Introduction

The remuneration report of the members of the Board and the Council of AS Amber Latvijas balzams (hereinafter - the Company) for 2022 has been prepared in accordance with the remuneration policy for the members of the Board, approved by the decision of the Company's shareholders on meeting at 7 July 2020, and the remuneration policy of the members of the Council from 27 June 2019, prepared according to Directive (EU) 2017/828 of the European Parliament and of the Council on the promotion of long-term shareholder involvement and Article 59.3 of the Financial Instruments Market Law of the Republic of Latvia.

The remuneration report has been prepared by the Board of the Company and revised by the Council of the Company.

The remuneration report is verified by a sworn auditor and it is reviewed and approved at the Shareholders' meeting together with other components of the annual report. The remuneration report is published simultaneously in Latvian and English languages together with the audited annual report of the Company as a separate component of the annual report on the [Company's website](#), section '[For investors](#)', as well as on the stock exchange [Nasdaq Riga website](#).

The audited net profit for the reporting period is EUR 6.3 million, which is 27.5 % less than in the respective period in the year 2021, because, although the net turnover has increased for the reporting year, the decrease in net profit was the increase in the price of the main raw materials, the shortage of glass in Europe, and the increase in its cost due to the energy-intensive production process, the increase in cost prices under the influence of rapidly growing general inflation, an increase in the cost of purchased energy resources as a result of changes in the market price, an increase in salary costs, which was affected by both the review of compensation in 2022 and an increase in costs due to the lack of labour had a much more significant impact.

In the year 2022, there were no significant events as well as no significant risks that the Company could face, and that could affect its financial capabilities and financial performance of future operations.
